Odyssey Neo G7
Experience a new level of multi-entertainment

Quantum Matrix Technology

Revolutionary Quantum Matrix Technology with Quantum Mini LEDs creates controlled brightness and perfect contrast to bring any game or movie to life in vivid detail.

Display HDR600

With 1,000,000:1 contrast ratio and VESA Display HDR600, both videos and games deliver abundant, deeper blacks and greater colour detail.

Next level gaming performance

Enjoy smooth and blur-free gameplay without screen tearing and stuttering with incredible 4k gaming refresh rates. 144Hz refresh rate 1ms response time (MPRT), and AMD Freesync Premium Pro[5] raise you to the top of your game.

144Hz REFRESH RATE   **1ms** Fast Response Time   **AMD** FreeSync Premium Pro

Smart Monitor

## Everything you need, all in one convenient screen!

Watch, work and chat – all without connecting a separate PC – with Smart Monitor. Your favourite content, productivity and video call apps are built-in for a simpler and more stylish desk setup that's a joy to use every time.

Smart TV Experience

Binge watch the latest drama with built-in OTT services. Enjoy a full Smart TV experience with the Smart Monitor, delivering everything you need to stay entertained without ever connecting your PC.

App subscription may be required. Apps displayed vary by country.

More than a TV, more than a PC

PC-less Workspace

Browse the web, edit documents and work on projects, all without the need for a separate PC. With new Workmode, you can also remotely access another PC.

Convenient connectivity

Wirelessly connect Apple devices to the Smart Monitor and view on a bigger screen with AirPlay integration. You can even mirror apps, documents, and websites.

Keep work environment clutter-free and stress-free with just a USB-C cable that can power up, transmit data, and even send display signals between devices.

IoT Hub

Control every internet-connected smart device in your home from the convenience of your Smart Monitor with SmartThings* and control it by voice with built-in voice assistants including Bixby** and Amazon Alexa***.

*Available technology, functions and features may vary by country, service provider, network environment or product, and are subject to change without notice. Requires a Wi-Fi, Bluetooth or other wireless network connection and devices registered to SmartThings app. Connected devices are sold separately. For full compatible device list, please check https://www.smartthings.com/products.

**A Wi-Fi connection is required. Bixby is Samsung's brand of artificial intelligence (AI) / Internet of Things (IoT) voice assistant. Bixby service availability may vary depending on country. Bixby recognizes selected languages and certain accents/dialects. The user interface may change and differ by device. The availability of Bixby features and content providers may vary depending on the country/carrier/language/device model/OS version. A Samsung account log-in and data network connection (Wi-Fi or data network) are required. The specific voice commands and available functions may vary between each voice recognition assistant.

***Amazon, Alexa and all related logos are trademarks of Amazon.Com, Inc. or its affiliates. The specific voice commands and available functions may vary between each voice recognition assistant.

Newly added features

My Contents

When your monitor senses you nearby, it automatically shows your favourite pictures, the weather, and more with the new My Contents feature.

Easy Control

Control your Smart Monitor with your own mouse and keyboard* without difficulties from the remote control.

*Supported on selected applications (Home, Browser, Netflix, Prime Video, Spotify). Products are sold separately.

Maximise efficiency with multi view, by streaming and browsing on 2 screens at once.

M8, M7 support full screen multi view.

ViewFinity S9

PANTONE™ Validated

PANTONE™ SkinTone™ Validated

Intelligent Eye Care
www.tuv.com
ID 1111267728
TÜVRheinland CERTIFIED

For Creators and Designers

5K resolution

5K provides more pixels than 4K, making a bigger canvas for you, with 218 PPI for incredible detail. The 99% DCI-P3* option delivers the colour saturation to bring your ideas to vibrant life, and factory-calibrated colour accuracy** (ΔE < 2) delivers true colour representation straight out of the box.

*DCI-P3 is auto on windows. Colour representation calculated in CIE 1976.
**Factory calibration is completed and measured in sRGB before shipment. Screen features may vary depending on system environment, such as computer components, duration of use, or other factors.

Pantone™ Validated

Backed by the world leader in colour development, S9 is Pantone Validated, confirming the authentic reproduction of more than 2,000 Pantone colours and 100 Pantone SkinTone™ shades on screen. Now your work looks as good on your monitor as in the real world.

4K

5K

DCI-P3 99%
218 PPI

Making work productive and entertainment fun

Smart Calibration*

The ViewFinity S9 brings vivid colours to life. With Smart Calibration* and a smartphone, the screen can easily be customised for unique experiences. Choose between DCI-P3** or sRGB colour space, and customise colour temperature, luminance and gamma settings without any extra tools or complex procedures.

4K SlimFit Camera

4K resolution in the built-in SlimFit camera keeps video conferencing crystal clear, and capturing content in high resolution has never been easier.

Smart TV Experience

Switch over to entertainment the second you're done with work. Embedded Smart TV apps* have all of today's hottest streaming content, easily accessible in one screen.

*App availability may vary by country and separate subscriptions may be required.

Versatile Connectivity

A 5K monitor that connects to your favorite Windows and Mac* devices with DisplayPort and Thunderbolt 4 connectivity. The new Thunderbolt 4 compatibility means you can transfer data more reliably and charge with up to 90W power delivery.

*Some devices using Mac OS 13 may have limited compatibility.
